**TWO SOFTWARE PEERS COMBINE THEIR SPECIALITIES**  
New York Times, Col. 3, Pg. 3, Sec. D  
Friday August 26 1994

ABSTRACT:

Babbage's Inc and Software Etc Stores Inc, two of nation's largest **consumer** software specialty **retailers**, say they will merge in an almost even stock exchange; merger would create nation's largest specialty **retailer** for personal-computer software and video games and will better position companies to take advantage of booming market for **CD -ROM** personal computer software and other **products**; new company, which has not yet been named, will have more than \$500 million in...

**Abstract:** Marketing prognosticators have long predicted the era when customers choose the advertising they want, when they want it. CD-ROM technology is making that prediction come true. Clever marketers are using this medium to bring buyers together with **sellers**. This article examines two cases where CD-ROM technology is used to package and deliver product information directly to customers in ways that buyers are willing to pay for. In both cases, intermediaries seized the opportunity to turn marketing messages into publishable interactive content. (0 Refs)

**MiniDisc and DCC: Will they be playing more than music? (MacWEEK Special Report: Mass Storage)**

Adams, Eric J.

MacWEEK, v7, n23, p39(1)

June 7, 1993

ISSN: 0892-8118 LANGUAGE: ENGLISH

RECORD TYPE: FULLTEXT; ABSTRACT

WORD COUNT: 660 LINE COUNT: 00050

ABSTRACT: The new MiniDisc (MD) and Digital Compact Cassette (DCC) formats developed for **consumer** audio may be applied to data storage in the future; both **CD-ROM** and digital audio tape (DAT) migrated from the **consumer** -electronics to the computer field. MiniDisc, developed by Sony, uses a 2.5-inch-diameter...

...MD has several major advantages; it is portable, rewritable and rugged. DCC, invented by Philips **Consumer** Electronics, is considered a longer shot for data storage because Philips is less interested in marketing its **product** for **data** -storage **applications** than Sony, but Philips also invented the CD format more than 10 years ago.

... Data Boutique for upscale consumers who want personal attention from Your Personal Data Manager." Certainly, **consumers** won't handle all the logistics themselves. Suddenly a new industry will take off. (If...

...people monitor and manage their frequent-flyer miles, a far narrower market.) No longer will **consumers** blithely sign over the rights to their names. They may start getting interesting proposals: "We...

...can assist you in making better use of your most valuable asset, your name ... I **Customers** will search for the best deal in data banks as with other services - and once...

...some people have several checking accounts at different banks. (1) Not only do you find **consumers** of your products; you may also find **consumers** willing to pay more for your products, which is the principle underlying airline yield management...

...credit-rating bureaus and list brokers. They have the relationships with the sources and the **users** of the data. What they need - along with a change in attitude is relationships with the owners of the data, the **consumers** . For the moment, of course, Prodigy and CompuServe and other electronic service vendors are the...

...or other direct-marketing efforts. (There may be some sort of exemption for salespeople with **customer** lists, doctors, local charities, college reunion committees, and other small special-purpose organizations.) Likewise, American...

...check on the sources and uses of data just as they now check on their **clients** , sources and uses of funds. Other organizations can use the data supplied by the data...

...governments and production/marketing concerns. It would be a stretch to say that they have **consumers** ' interests at heart (they will have their

own corporate interests at (part), but at least...

...that they need to compete vigorously on the basis of price and service to win **consumers** ' business. (Sure, there's a lot of overhead, just as there's overhead to getting...used or withheld. Your name and data get packaged in with all the other Porsche **buyers** , and you get your cut. In addition, you can start negotiating with a vendor - how...

...highly sophisticated software which enables him to handle you and hundreds of thousands of other **consumers** effectively. He also manages (or prevents) the aggregation of data; a single transaction is meaningless...

...which is why it's important to make those connections non-persistent. (Fortunately, as many **customers** know, vendors' promises of seamless distributed databases are mostly projectorware - sales presentations, not reality.) But...

...the owner Another role of the data bank/data agent will be to help the **consumer** manage his data. In addition to specifying at the point of a transaction what may be done with the information usually, just to send it to his agent), the **consumer** deals directly with his agent to develop rules about the use of his data. He...

...transactions and the like? Credit grantors such as Visa may maintain their own lists of **customers** , and they may even send out lists of bad cards, but that information can be...

...to detect. What happens when Visa wants to send a special mailing to all its **customers** who did more than \$5000 of business in 1999? No, sorry, it can't just...such information almost for free must now pay for it, compensating the rightful owners, the **consumers** . Smaller companies, who had to rent lists from bigger companies, will continue to do so...

...those names may go up, but the overall result will be better targeted marketing, happier **consumers** , and perhaps a reduction in the use of paper. Big companies who owned and rented...

...bank representing the interests of the data's owners. The losers will be low-end **consumers** who enjoyed broadcast tv, junk mail and free samples, who may get less of them...

...free information but will now get costlier, better information. The beneficiaries will be high-end **consumers** who sell their attention and get less junk mail, the data banks who manage the...

...for sure. Working on the assumption that broadcast, network tv has been replaced by videos, CD-ROMs , public and private **information services** , **electronic mail** , home fax, on-demand printing and the like. There's a lot more ways both...

...of options. They can post their information in public databases, akin to classified ads, where **customers** and **buyers** are looking for each other. They can also include ads in buying and shopping services...

...good market for your ad about polka-dotted chrysanthemums.) These ads are offered to anonymous **customers** , for anyone who happens to look at the requisite service. There will no doubt be great varieties of information services, from simple databases and ad listings, to **consumer** guides, to bulletin boards, magazines, conferences, etc. There may be options such as getting sponsored...

...economic incentive). Then, of course, there are special offers to the targeted audiences. Mr. Porsche-Buyer , would you like to see this special sponsored movie, Life on the road with my Porsche, starring Hank Hotrod?" Probably not ... More intriguing, perhaps, is this offer: Ms. Excel-user /CPA, Would you like to watch this fascinating video on Tax tricks with Excel? [with...

OPTICAL DISK FILE DEVICE

PUB. NO.: 01-154382 [JP 1154382 A]  
PUBLISHED: June 16, 1989 (19890616)  
INVENTOR(s): NAKATSUKA KUNIO  
APPLICANT(s): MITSUBISHI ELECTRIC CORP [000601] (A Japanese Company or  
  Corporation), JP (Japan)  
APPL. NO.: 62-310937 [JP 87310937]  
FILED: December 10, 1987 (19871210)  
JOURNAL: Section: P, Section No. 933, Vol. 13, No. 422, Pg. 142,  
  September 20, 1989 (19890920)

ABSTRACT

...to write in addition and to form a chart at high speed by dividing a  
**user** area on an **optical disk** into an **index** recording area and a  
file recording area...

...input and output unit of data and a data part 52 is used, and the **user**  
recording area on the **optical disk** is divided into the **index**  
recording area 41 and the file recording area 42. Then, at the time of  
recording...
